

# PAPER / FILM BANDING SYSTEM

## I-MARK DETECTION & STAMPING

### YL-420SAE Series

#### I-MARK DETECTION SENSOR

Banding with bands imprinted with the information and the logo of the product enables sequential banding in the same position, which further improves product quality

#### STAMPER

Prints the expiration date, product information, etc.

#### AUTOMATION LINE

Connection to the automated line allows continuous operation with minimal labor

#### BAND WITHOUT PRE-HEATING

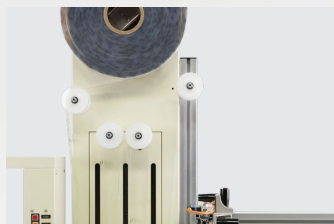

Built-in automatic temperature control system enables the usage of the machine right after turning on

#### I-MARK DETECTION SENSOR

#### FILM MOUNT

#### ADJUSTABLE PANEL FOR THE BAND TO BE INSERTED

#### BAND SLOT
