AUTOMATIC BANKNOTE BANDING MACHINE YL-420PM

Merit

- YL-420PM consumes/uses <OPP film + Heat-sealing method> which does not make any harmful gas while operating. Not like the existing banding machines which makes harmful gas by consuming/using OPP film + Heat-sealing method.
- Just press the start button, and the rest of the operation will complete**
All you have to do is press the start button for banding banknotes. No need to insert a band for banding banknotes every single time like when you use existing semi-automatic machines.

✓ No Harmful Gas!

PRESS ON

- Able to band 1,000 bills(10 bundles) of banknote tightly by pressing it.
- It starts banding banknotes only by pressing 'START' button for your safety.

500 bills

1,000 bills

PRESS OFF

- Able to band banknote(100 bills), vouchers, bandbooks, cards, documents for various banding
